

COMMUNICATION ACCESS CARD (CAC)

1) What is the CAC? What is it for?

The CAC is:

- a) an identity card for people who are Deaf, DeafBlind or Hard-of-hearing (Hoh) and who are officially registered as clients of SADeaf
- b) to help inform people on how they can improve their communication with you
- c) to make it easy to identify you as a person with hearing loss via the international logo of deafness on the card
- d) to show you are a client of SADeaf and are able to receive services from SADeaf

The CAC will not display your full NRIC as per PDPA guidelines. It will show only the last 4 digits of your NRIC. The CAC will be customised to each individual's preferred term of identifying themselves as well as the preferred communication mode.

1) My friends who previously registered as SADeaf Client received a Hearing Help Card (HHC). Will I also receive it?

The Hearing Help Card (HHC) has been renamed to Communication Access Card (CAC) to better fit and reflect the purpose of the card. We are phasing out the HHC. Hence, if you are registering as a new client for the first time, you will only receive the CAC.

2) Does that mean my current client card / HHC is no longer valid?

Yes. The CAC will replace all the older versions of SADeaf client cards, including the HHC. This means that SADeaf and supporting partners / agencies will recognise only the CAC and not any other cards.

3) What does "Not for fundraising" on the CAC mean?

It means that the card is NOT intended for fundraising purposes. This is to safeguard our clients and the public interest, and to prevent the misuse of the card for unintended purposes. (For example, an individual may sell keychains in public places while showing the SADeaf's client card).

4) What happens if I lose or damage my CAC? (for existing SADeaf Clients)

For immediate replacement, please proceed to the SADeaf office and bring along your NRIC and a passport photo.

Alternatively, you can complete the SADeaf Client Registration, Update & Card Replacement Form and email it to info@sadeaf.org.sg or apply for a replacement using the Google Form.

Note that there will be a \$5 replacement fee.

5) What do I do if I find a lost Communication Access Card (CAC)?

Please return the lost card to SADeaf office at 227 Mountbatten Road Singapore 397998.
