

Thank You

The Singapore Association for the Deaf (SADeaf) has been serving over 6000 Deaf and Hard-of-Hearing persons in the past 68 years, helping them reach their full potential, attain a better quality of life and integrate into mainstream society.

Our services include social and mental health support, employment support, financial assistance, counselling, education support, early childhood intervention, hearing care, Deaf awareness programmes, sign language interpretation, note-taking, sign language classes, as well as the only programme for DeafBlind people in Singapore.

As we strive steadfastly to uplift the quality of life of people with hearing loss, the journey has not been easy. The COVID-19 pandemic has dealt a blow to our fundraising efforts, while demand for assistance from our clients rose at the same time. We will be running a budget deficit of close to \$500,000 this financial year.
